Examiner's Statement of Reasons for Allowance

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 1, 9, and 16:

The present invention is directed to an antenna element for use at an operating corresponding wavelength.

Regarding claims 1, 9, and 16 Prior Art fail to specifically teach that an antenna element for use at an operating corresponding wavelength comprising first sub-element having first and third sides each having a length of approximately one-sixth wavelength, second and fourth sides each having a width of approximately one-twelfth wavelength; wherein a signal is connected in series to a feed-point located at the mid-point of the first side; wherein a first gap is located at the mid-point of the third side and is a first fraction of the wavelength in length; and a the second sub-element comprising fifth and seventh sides each having a length of approximately one-sixth wavelength, and sixth and eighth sides each having a width of approximately one- twelfth wavelength; wherein a second gap of said first fraction in length is located at the mid-point of the seventh side; first side of said first sub-element being positioned in parallel and spaced a second fraction of the wavelength apart from the fifth side of said second sub-element, such that the first and second sub-elements are magnetically coupled.
